

### Red Challenge

From the given starting points write the next five jumps of 25.

e.g.

25, 50, 75, 100, 125, 150

275

450

775

300

### Amber Challenge

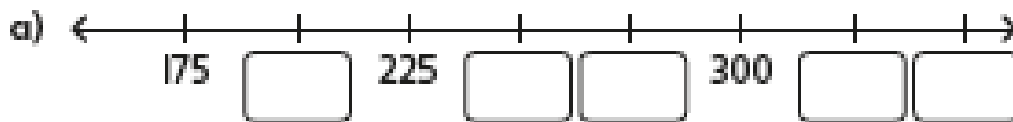

a)

825			900		950	
-----	--	--	-----	--	-----	--

b)

5,000		5,050			5,125	
-------	--	-------	--	--	-------	--

Complete each number line.

Now:

Richard is counting up in 25s from 0.

Circle the numbers that he will say.

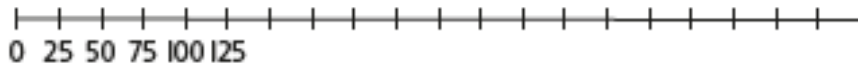

165	155	200	205
250	325	405	475
502	900	975	1,000

How can you tell which numbers Richard will say? Explain your answer.

### Green Challenge

Mo plays a video game. For each alien spaceship he destroys, he gets 25 points.

He scores 325 points. How many alien spaceships did Mo destroy?

Stickers come in packs of 25.

How many packets will Luis need to buy if he wants 313 stickers?

How many packets will Reena need to buy if she wants 999 stickers?
