	Add detail to my creations, such as using simple tools to add detail. Select and use simple tools and techniques competently and appropriately to shape, assemble and join materials. Work with others to develop a group narrative within imaginative play, taking on board the ideas of others. Make changes and adapt my creative work to improve and develop it. Safely use and explore a variety of materials, tools and techniques, experimenting with colour, design, texture, form and function; share their creations, explaining the process they have used; make use of props and materials when role playing characters in narratives and stories.
